Education is a way to understand this life, different people, different cultures, all our world. Education is a continuous process during all our life. We learn about many different things all this time. Actually, people develop all their life. We learn gradually. People who ~~can~~ try to get education as much as they can is more successful ~~than~~ in life than people who ignore all ways to get education. Educated people have more developed view of the world. ~~People who~~ Uneducated people are bound by ~~own~~ their own chains. They are limited. We all know, ~~that~~ that all people have an opportunity to get education but not all of us use that opportunity. Rediculous, Isn't it? Education is the most important thing in our life. It makes us change during the life. It makes us to be human. ~~The people~~ If a person does not get an education he is not different from animal.

The more we learn the more we realize how ignorant or misinformed we have been about things.
